# WIND ROSE

PADEL COURT

*WindRose is a panoramic padel court made for the joy of the players above all different levels, with a clear panoramic view for the spectators. All the fabrication of the structure is being made in our workshop, with the proper quality checks needed and of course the structure is certified by our engineers team.*

*The court has an extremely robuste structure with a premium aesthetical finition. The metal structure is being cold-galvanized and owen lacquered by a professional company.*

*To highlight the glasses model- all 3x2 meters-, which meet the startads established by the World Padel Tour. We use premium quality turf, all of them approved by the FEP. We are specialized installers of textured turf.*

*All our courts have been designed with the special advise of players inside the professional scene of padel. The court exhibit the flush mesh with the glass with hidden anti-injury points. WPT-type rail exits and net post with hidden stressing system.*

*Also noteworthy the exclusive design lighting pillars which includes last generation 200 W LED.*

INGODE IS COMMITTED TO THE DELIVERY OF THE COURTS WITHIN THE **AGREED PERIOD OF TIME.**
